

How to Set-UP Call Recording in W10M

ONLY FOR Lumia 550, 650, 950, 950XL

> Go to “Settings → System → Phone”

> Scroll down and click “Choose apps” under the “Default Apps”

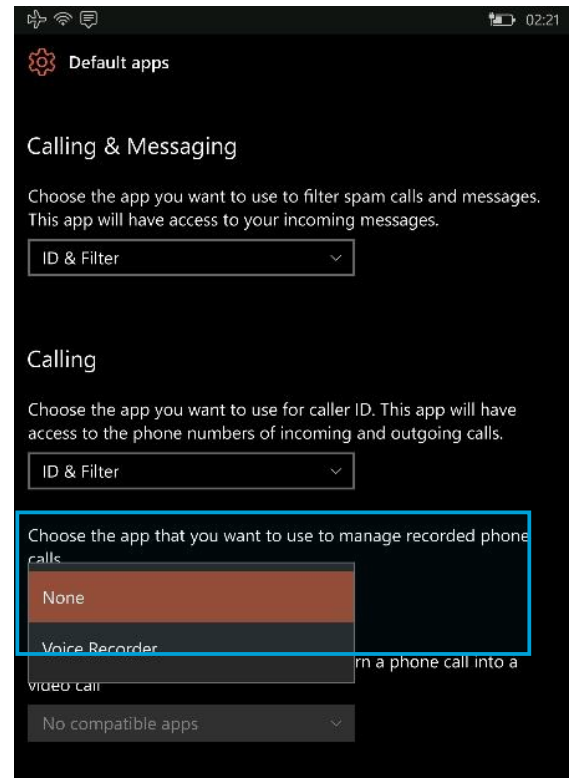

Windows 10 Mobile (Lumia) Group :- <https://t.me/Windows10Phone>

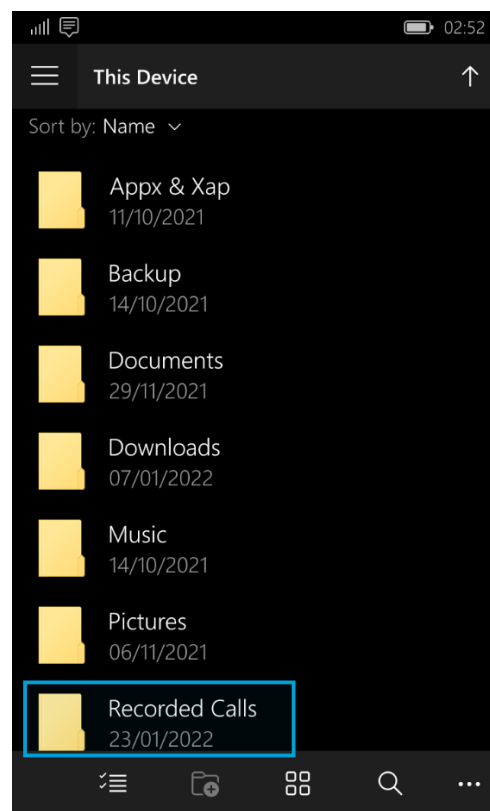

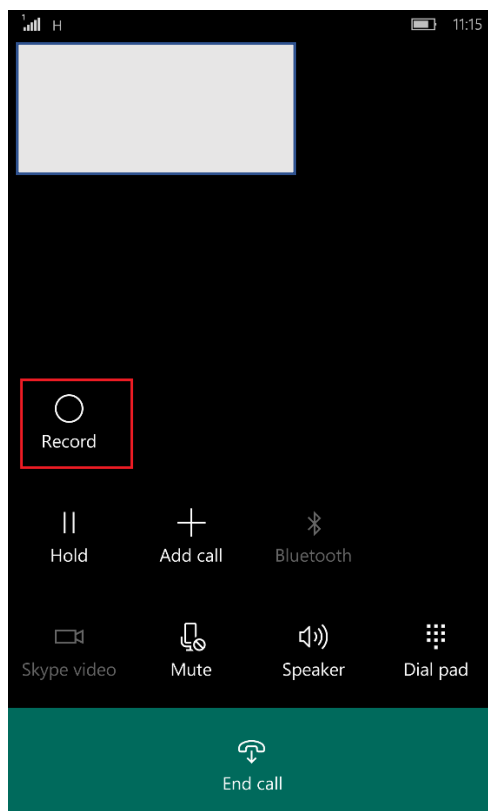

> In there, under the **“Calling”** heading, choose the second drop down list to select the **“Voice Recorder”** app as the app to manage phone calls.

> After that, during a call, you will have a button to record the phone calls.

The recorded phone calls will be saved to a folder called **“Recorded Calls”**

Troubleshooting

The **“Voice Recorder”** isn’t showing to select in **“Choose apps”** ?

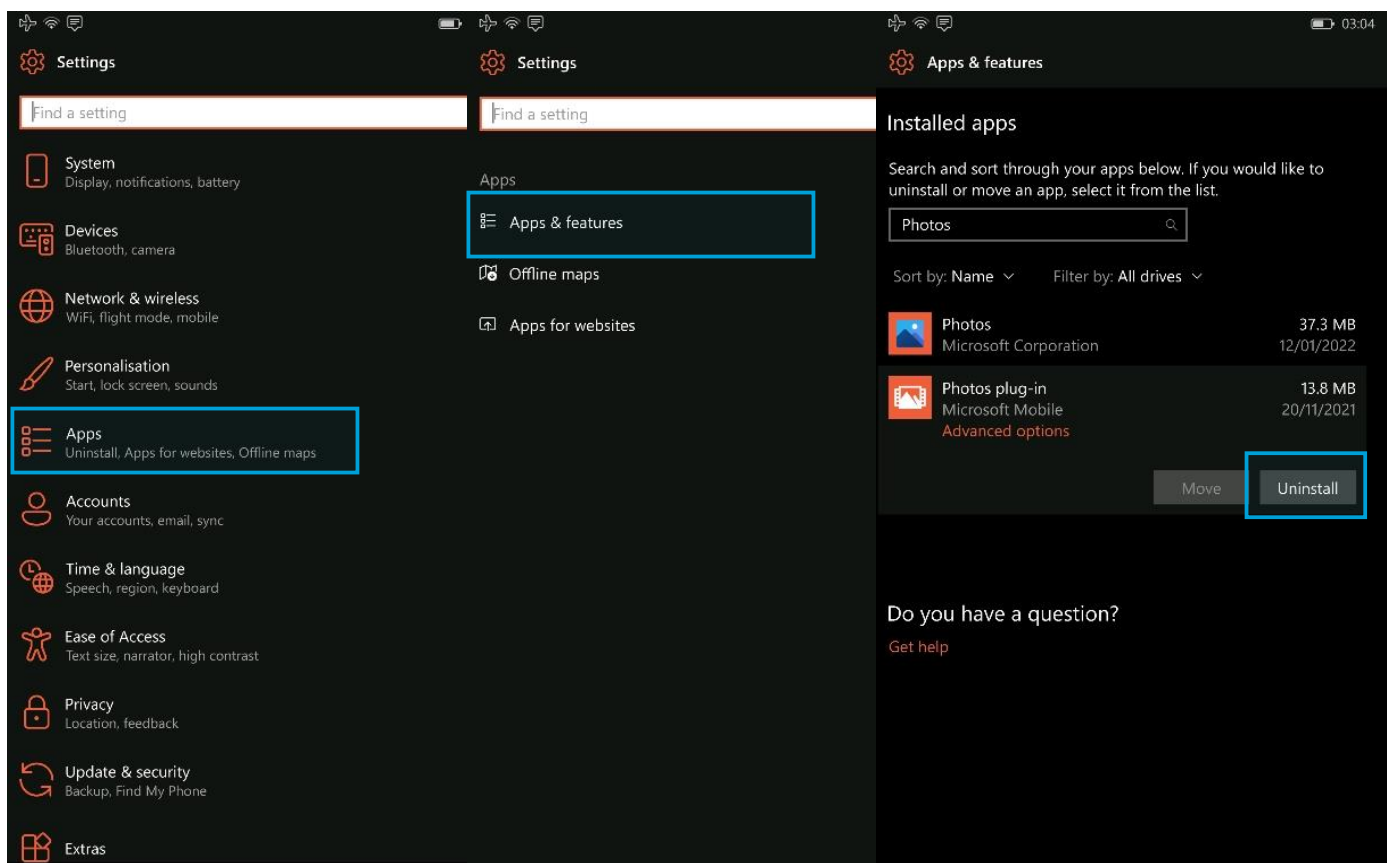

Then try these suggestions ;

1. Reinstall Microsoft Voice Recorder

- > Reinstall Voice recorder app from Microsoft Store or from W.U.T (Windows Universal tools)
- > Open **“Voice Recorder”** once installed, and accept the **Permissions prompts**
- > Then restart the phone and check in settings to see if it’s available to select.

2. Uninstall Photos-PlugIn

- > Go to **“Settings → Apps → Apps & Features”**
- > Find **“Photos Plug-In”** and uninstall it.

- > Then restart the phone and check in settings to see if Voice recorder is available to select.
